

# THE NEW TORNADO VORTEX MULTI-SURFACE SCRUBBERS

## HOW WE MADE OUR BR MULTIWASH EVEN BETTER

### Improved mechanics

- Reduced load and friction for enhanced gear operational life
- Offset motor for improved machine balance
- Improved drum seal preventing water and dust ingress to the motor

Larger solution tank opening = easy fills and less spills

Improved tank connection and quick disconnect solution systems for easier assembly and removal

Tapered front cover design and improved brush protrusion for better access under objects

Fully enclosed spray nozzle for better protection to the spray tip and your surroundings.

Increased brush diameter provides 12% more scrubbing for even better cleaning performance

Improved transport mode with larger wheels and increased brush clearance for greater ease of movement when not in use

User-friendly spray push button instead of a pull handle

Wider, more comfortable handle

Stopper added to prevent lid touching drum during carpet encapsulation process

Increased recovery tank capacity and added carry handle for more hygienic removal

- ✓ No-tool user assembly
- ✓ Ergonomic design
- ✓ Improved aesthetics
- ✓ Greater capacity
- ✓ More power
- ✓ More protection

Plus the same multi-surface versatility and deep-cleaning power as the original Multiwash!
